

## 1 Coax RG-6 Super High-Resolution Cable

The FALCON RG-6 Super High Resolution Coaxial Cable is a high performance and high quality long distance analog and digital video signals cable. The cable is made with a quality 18 AWG solid centre conductor and consisting of dual shielding of aluminium braid and foil.

- Quality Construction - 18 gauge Solid center conductors and dual shield design consisting of aluminum braid and foil.

CONSTRUCTION	
Coax Center Conductor	: 18 AWG, 1/1.02 mm Annealed Bare Copper.
Dielectric	: Foam Polyethylene
Shield (Nom.)	: 50% Braid Aluminum Foil & Alloy with Jelly Coated
Outer Jacket	: PVC
Outer Jacket Colour	: Black / As Per Customer
DIAMETERS	
Center Conductor	: 1.02 mm
Dielectric	: 4.57 mm (Nom.)
Outer Jacket Diameter	: 6.80 ± 0.20 mm
ELECTRICAL	
Impedance	: 75 Ω
DC Resistance (Max.) At 20°C	: 22.40 Ω-km
Capacitance	: 53.1 pF/Mtr.
Temperature	: -20° to 90° Celsius.
Insulation Resistance Const.(Min.) At 20°C	: 5000 M Ω-km
