

## 20 AWG 2 CORE SPEAKER CABLE

The FALCON 20 AWG Speaker Cable is a high performance and high quality twisted pair PVC seathed cable designed for connecting speaker to the amplifiers and other AV Systems for commercial/residential purposes. This cable offers a higher conductor strand count in bare copper against any available and comparable cables in its segment to give best flexibility and ease of installation.

\* Quality Construction – Conductors are stranded 20 gauge copper, and the conductor Insulated with color-coded Red/black with flexible & rugged PVC Jacket.

CONSTRUCTION	
Center Conductor	: 20 AWG Bare Copper
Insulation	: L/F PVC 1.80 mm.
Outer Jacket Colour	: D.Grey Soft L/F PVC.
DIAMETERS	
Center Conductor	: 20 x 0.193 mm.
Outer Jacket Diameter	: 5.50 mm.
ELECTRICAL	
DC Resistance (Max.) At 20°C	: 34.43Ω-km. at 20° C.
Temperature	: -20° to 70° Celsius
Insulation Resistance Const.	: 36.7 MΩ -km
